

Myths of Suicide

Half Day Workshops in Kwinana and Joondalup, March 2018

This workshop is brought to you by the **Alternatives to Suicide WA Steering Committee** (MercyCare, ConnectGroups, Consumers of Mental Health WA, HelpingMinds, Suicide Prevention Australia, UWA Centre for Aboriginal Medical and Dental Health, Margaret Doust, Ella Macnish and Kai Schweizer) and **Western Massachusetts Recovery Learning Community**.

**MYTHS
OF SUICIDE
13 & 16 MARCH**

The Myths of Suicide workshop is intended to provide a basic understanding of many of the myths and misunderstandings of suicide and people who say they are suicidal. It is geared toward people working in peer roles, provider roles, family members, suicide attempt survivors and other community members.

Background

Alternatives to Suicide is an innovative peer-led suicide prevention approach from the Western Massachusetts Recovery Learning Community (WMRLC) in the USA. The WA Steering Committee is pleased to bring Sera Davidow and Caroline Mazel-Carlton to Perth to follow up presentations previously made in Perth in February 2017.

WMRLC creates conditions that support recovery at both the individual and community level through trauma-sensitive peer supports and the development of a regional network. They believe that human relationships are at the centre of what heal people who have experienced extreme emotional states, trauma, mental health diagnoses and a variety of other challenges in life. Their lived experience and 'humanness' is what unites them. Their stories, collective wisdom and strength are what guide them and their community to wellness. You can view further information about Alternatives to Suicide and WMRLC at <http://www.westernmassrlc.org/alternatives-to-suicide>

Presenters

Sera Davidow

Sera received her first psychiatric diagnosis as a teenager, accumulating a handful more by her early twenties. That, along with a lengthy history of self-injury and emotional distress, led to her first hospitalization against her will at the age of 22, and an array of prescriptions for psychotropic drugs. However, it was her 'non-compliant' and rebellious nature that paved her way down another path.

Sera's journey first brought her to a position in a traditional role in the mental health system, but she soon found her way to peer-to-peer support communities, advocacy and social justice efforts. At present, Sera works as the Director of the Western Massachusetts Recovery Learning Community (RLC) where she focuses much of her time on grant writing, oversight and project development. Through this work, she has gained a range of experiences including starting up a peer respite, opening resource centres, and producing educational materials (including co-authoring handbooks on peer respites and developing peer roles). She has also found a passion for filmmaking, beginning with 'Beyond the Medical Model' in 2013. In addition to the RLC, Sera is a founding member of the Hearing Voices USA Board of Directors, and a regular blogger at Mad in America (www.madinamerica.com/author/sdavidow).

More about Sera's story and work can be found in a full-length interview featured in Sun Magazine's April, 2017 issue: <https://www.thesunmagazine.org/issues/496/an-open-mind>

Caroline Mazel-Carlton

Caroline first interfaced with psychiatry at the age of eight, and years later was able to find a path out of a world defined by diagnoses and medications through roller derby and social activism. Since moving out of a staffed group home eight years ago, she has worked tirelessly to create change in the mental health system, developing and re-defining peer roles and values in various organizations in North Carolina and Massachusetts.

Caroline currently serves as Director of Training for the Western Mass Recovery Learning Community, promoting an ethos of self-determination and mutual support in a number of settings across the globe. She has been privileged to be a facilitator/trainer for the "Alternatives to Suicide" approach for over five years, promoting conversation and connection over the current paradigm of "risk assessment". Caroline also works towards developing regional networks of support for voice-hearers in her role as Training Coordinator for the national Hearing Voices Research and Development Project.
